...Over one megabyte of user available RAM for your HP9845! *

Yes, you read it right! Over 1 megabyte of user available RAM for your 9845! The Infotek AM 45B memory consists of two circuit boards, each containing 524K bytes of memory. The boards are form, fit and function interchangeable with the 131K byte boards designed for your machine. The installation can be made in minutes and does not involve any modification of your HP 9845.

Just imagine what you can do with a diskette of data IN RAM. Data-base routines, sorts and searches can run many times faster. No need to buy a second disk drive just to make backup disks—copy from memory and do it much faster. And how about those real-time instrumentation applications where data is generated faster than you can dump to disk.

Now for the best part, the price:

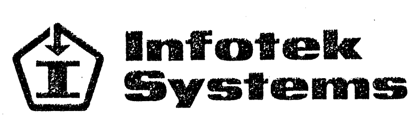

$4,500 per 524K byte board.

Availability is now!

For a demonstration in your machine, call collect in California, (714) 956-9300.

Nationwide call toll free, 1 (800) 854-3469.

Or return the coupon.
